one attendance at a MEKNIGHT Embassy function; two trips
to \_\_\_\_\_\_ airport; and,\_gurprisingly enough, a Sunday
afternoon tour with 201-873887 and his wife to take
pictures along the river front and drink beer in a \_\_\_\_\_\_
cafe. (During this last excursion, the known KGB officer drove
the GRU chauffour and his wife.) The first trip to the airport
was made in the company of several other high-ranking Embassy
officials to greet an important transiting delegation. (See
HABAg 22399.) On the second trip AEBOOR was accompanied by
201-128117 (suspect KGB resident) and 201-790164 (chauffeur).
On arrival, AEBOOR and his companions went up to the
terrace to take photos of the Concorde as it landed for a
two-day visit. They were joined by Mr. and Mrs. AELESION
and 201-228494. Evidently, the KGB and the GRU groups went
separately to photograph the same plane.

- 4. Twice during the period the BIBAFFLEs felt that AEBOOR might have been checking for surveillance. Otherwise there were no incidents of note. Not once were the BIBAFFLEs approached by local authorities with a request that they identify themselves.
- 5. In sum, we remain as much in the dark as before about AEBOOR. With every opportunity and reason in the world to lead a hectic pace, he spent the majority of his waking hours within the Embassy. During the days in question he received only one phone call even worth noting, one in connection with the

BIBAFFLEs-30 and its seem to be talking of different people when they describe the and one of BIBAFFLE-45's impressions that we are checking is her statement that the have occasional parties at home with singing and dancing. We have no evidence of such gay get-togethers.

3. As Headquarters is aware, the BIBAFFLE transcribers only process material from special operations such as AEVARIETY, AELANYARD, etc. and cannot furnish assessment on all individuals in whom we have interest. However, we have requested BIOGENESIS to have the BILOCULAR transcribers work with the form.

# SECRET

Beveral times in the course of the evening, about not being invited to our 4th of July celebrations. We lamely pointed out that the affair was so big that wo only invited men - Ambassadors, Milatts, and Comm'. Chiois, and besides, the food was lousy. Nevertheless, we assured him he'd be invited the next time. He was suffering: his usual case of halitosis, which effectively keeps one at a proper distance. was her charming self, with a sparkle in her flirtatious eyes. She asked us to convey regards to LEVERONE and MARGANDE.

- Soiet & Nuconset Cett Bernan HARGANDE.

The state of the s				

He is an introvert, clever, cautious and distrustful. He knows how to hide his feelings and he has an excellent self-central, showing violent feelings on very rare occasions. (See Section IV).

With relation to his cultural level, nothing much is known, as he has never been heard speaking on themes of general culture. When he speaks at social gatherings he is joking, using double meaning phrases (usually funny)

5/c. att 1 to HIBA 0/080 CS CUPY 90/-23670/

JAN 16 1970

or he tells jokes. It is as though he were afraid to show that he takes things seriously, as though he were ashamed or frightened.

During the various opportunities when his wife is screaming all sort of impropieties at him he maintains absolute silence, seeming to be concentrating on one fixed idea, and letting all that off him. He has been identified and known to belong to the is considered a high official in the embanay and of abordute trustworthiness being respected and feared by the rest of the embassy staff. He speaks perfect spanish. He is present at all receptions with respectively), not only in his official position, but also in his private life, having a warm friendship between the three which is quite rare in the embassy circle. During his stay at the summer home, and his wife occupy the quapters reserved for the ambassador.

#### III.- PERSONALITY OF

A certain duality of personality is apparent in her behavior. In her married life she shows herself to be intolerant andimpetuous, arriving at absolutellack of centrol on various occasions, bringing forth continual matital quarrels.

On the contrary, in her social life, she shows herself as a very decile, cheerful woman, being the center of attraction in almost all the gatherings for her "lovely disposition" and gayety, not only among the men but also their wives. (See section I).

is a woman brought up in the typical seviet atmosphere, subjected sice childhood to a rigid political indoctrination in some juvenile organization and in school. She is not sufficiently intelligent to rid herself, even partially, of what she has been taught. She does not separate her affective life from the obligations that she, presumes, every communist citizens should have. It seems that she does not realize the importance of her husbands mission. She is not a woman who is attuned to her companion. She is not on the same wave length, she does not understand him. She harbers a concentrated and continuous resentment against him. Hap, be this is due to his irenic, and keen and wounding sense of humour.

	ngs, this woman has shown, on various
opportunities, to feel antipathy and sco

## V.- CONTACTS

It was ascertained that \_\_\_\_\_\_ arrived home very late at night and even at dawn, which is quite out of the ordinary with the rest of the diplomatic personnel. (See Annex 2).

This led to the supposition that subject was either leading a licenticus life or carrying out clandestine activities. Therefore, a permanent suverveillance was carried out during 24 hours for 20 days on his home, proving that he dead in reality come home between 6 and 7 at times.

Fifteen days before his return to the U.S.S.R. for his leave, a surveillance and shadowing service was set up defing all 24 hours, proving that subject did make clandestine contacts.

It was under these circumstances that the 21/5/69, at 1200 hours, a contact was spotted. This occurred once again the the 23/5/69, at which time the "contact" was suspicious of being followed the pulled quickly out of the area.

On the 18th of Au	gust of the present yes	r, when a security	agent who
was carrying out his duties o	n the address	(improvement or the	P.T.),
spotted the above mentioned o	ontact patrolling the	one; with the aid o	f a Police-

Beginning October 22nd of this year a surveillance and shadowing service was established to determine his activities and possible comtacts with

### VI. CONCLUSIONS

With reference to the the following conclusions have been reached:

- a) He is a diplomatic officer who carries out his professional work efficiently, showing at all times great sagacity when carrying out public contacts and relations, avoiding on various opportunities with ingenuity and ability the shadowing detail assigned to him.
- b) With reference to his relations and activities within the bassy, it is observed that he carries a lot of weight over the rest of the personnel, as he is given deferential attention and respect not only at official but private functions within the circle.
- e) He is a person who is always busy, on the go all day and on into the late hours of the night.
- d) His married life is not harmonious, due to the character of his wife who is temperamental and impetuous and not tolerant toward subject. It is estimated that these misunderstandings are linked to his activities outside of normal working hours, which take him away from home, as well as, the immifference and silence with which her recriminations are received.
- e) With reference to his contacts, mentioned in this report, the corresponding inventigations are being carried out to determine how for they reach and their importance.

DISPATCH SYMBOL AND NUMBER

4. We have not been able as yet to establish direct social contact with AEBOOR. Both Nina T. MARGANDE and Paul W. LEVERONE (who have legitimate reason to seek him out) have tried, but to date, to no avail. Our hope has been to have AEBOOR actually tell us of his plans - will he indeed be transforred Our original thought was that the could readily determine if he had indeed applied for a visa to that country. As you know, we struck out here also.

whether AEBOOR's move was routine and innocent or if indeed there was something sinister involved. If AEBOOR does indeed pick up and move we shall, of course, be somewhat relieved.

Whether AEBOOR's move was routine and innocent or if indeed there was something sinister involved. If AEBOOR does indeed pick up and move we shall, of course, be somewhat relieved.

However, this will not answer categorically the major quostion—was the operation compromised? It would appear that regardless of what happens to AEBOOR, we shall never know the actual reason for nis move. However, for what it is worth, the evidence here does not point toward a compromise.

Transmittal of Tapes ACTION BANCORD - REFERENCES References: A. HABA-20415, dated 27 March 1969 B. LABW-11445, dated 21 April 1969 . 1. Forwarded under separate cover are two AZLANYARD tapes covering 26, 27 and 28 July 1969. The recording for the 28th runs through the last half of the first tape and all of the second; it involves a conversation between AEBCOM and 201-268170 regarding the former's experiences during his recent home leave. We should very much appreciate having Hendquarters' monitors review this conternation of 28 July and forward to as complete a transcription as possible. Once the transcription is finished the tapes may be destroyed. In reference B Headquarters suggested that samplings of AELANYARD be forwarded tri-annually. Since we have begun forwarding the most interesting AELANYARD tapes for transcription at Headquarters, we assume there is no longer any need to transmit routine samplings of the initial BIOGENESIS product. Operational Possibilities Against FISTEAL Priority Targets

Action Required: See Paragraph 5.

Reference: HABW-11473, dated 5 June 1969

1. The detailed analysis of the Station's operational efforts against some of the priority FJSTEAL targets and the suggestion that perhaps AEBOOR offcred the best immediate operational promase and warranted special attention was reviewed and discussed by the interested officers; it should some as no supprise to Headquarters that there is really little divergence of opinion, not only as to the priority target, but also insofar as operational approach and conduct is concerned. We would like to correct the apparent Headquarters impression that the Station was negligent in the follow-up of operational opportunities and was waiting for the FJSTEALEDS to take the initiative insofar as future contacts were concerned. We believe Station efforts have been as aggressive as possible in the existing operational climate, and if we were remise, it was in failing to report in detail the various negative results of what we consider normal operational efforts.

2. AEBOOR was selected as one of the priority Station hargets for the simple reason that three officers had direct access to him through Identity; once he accepted the invitation to Paul W. LEVERONI's home he was moved up to the top of the priority list since it was hoped that continued and rather frequent contect could be maintained for assessment and operational purposes. Every reasonable effort was made to follow.

up the first social contact (experience has shown that the FJSTEALers here will not take the initiative and must be ectively pursued) but a number of conversations (both face to face and by phone) ended up in the vague promise on the part of Subject that "we must get together soon". In the interim the Station tightened the coverage of AEBOOR Ly gutting AELANYARD on a 24-hour-a-day basis for a little over two weeks and by conducting full coverage surveillance for about one week. Our ressoning behind this acting was as follows: such intensive coverage would possibly rermit us to spot a likely place where we could inject an access agent; it would give us a better "feel" of his daily activity; it might uncover one or more of his clandestine contacts. The results of the effort, while far from solving our problems, did give us a wealth of information which should help us in our operational planning once AEBOOR returns to his station.

- Nina T. MARGANDE managed to spend some time in conversation with AFBOOR's wife during a get-together of Identity on 21 May 1969. As a result of this meeting the groundwork has been laid for a follow-up by MAFGANDE; despite the fact that the wife was at first cool and then lukewarm to the idea of getting together for a shopping excursion, we will do everything pos-sible to bring such a meeting about and try have MARGANDE become the wife's "confidente", if this is possible. (In order to permit MARGANDE to pursue this contact in the most natural manner (Pand to give her a chance to meet and assess other FJSFEALer wives, she has also become a member of Identity.)
  - 4. Until his leparture for home leave AEBOOR was the primary FJSTEAL target and will continue in this position after his return until we can reach a decision regarding future action. There is one thing that should be kept in mind, however; and that is the fact that all of the FJSTEALers are reserved in their dealings with members of LNPURE. It seems that it is pussible to get some of the FJSTEALers to accept an invitation, even to a private home, but to try to develop such a contact into a continuing social relationship is a much harder proposition. Leland C. KROULD's experience with 201-313506 followed this pattern, and despite KROULD's efforts to continue and follow up what seemed to be the beginning of a good relationship, nothing came of the attempt; Stephen M. CARSIDE twice tried to utilize a natural opportunity to get together with 201-820310, only to be put off. as he was in an approach to 201-025485; Paul W. LEVERONE tried on several occasions to arrange a dinner with 201-183943, only to be put off (and this despite the fact that 201-183943 maintains extensive social contacts with non-WOLADY types). 201.025485 has expressed an interest in social contact, and since he is a senior type who should not have to check out and obtain approval for his social activity, we hope that he will not confirm us closely to the pattern. This is not the time or place to examine the possible reasons for the FJSTRALer attitude; it is merely mentioned to demonstrate that we are fighting an uphill (although not a hopeless) battle, a battle that we intend to win by fair means or foul.

CAMPBEATION

CONTINUATION OF DISPATCH SYMBOL AND NUMBER SECRET HABA-25693

5. The value of the PCQ (a copy was forwarded with Reference) in assessment of target individuals is readily apparent, and it is requested that ten English and Spanish language copies be forwarded to the Station for use in our assessment program.
